

2010 USTA Jr. Team Tennis Kentucky State Championships 8U Beginner and Intermediate QuickStart Tennis Format

Court size: 36' x 18'

Racket size: 23" or smaller

Ball: Wilson Red Low Compression

Serves: Overhead and underhand serves are allowed. Drop hits are not allowed.

Team Match: A team match will include 3 singles matches.
Matches are not gender specific.

Scoring: All matches on 36' modified courts are best of three (3) games to 7 points.
Match scores for each individual match will be added to the team score.
Dual team matches can end in a tie.

Service order: Player A, or Team A, will start service for the first 7 point game. Player/Team A serves a point from the right side (deuce) and then the left side (ad). After that, the opponent does the same. Continue until someone gets to seven (7) points to win the game. Continue with a 2nd game. The player who served the first point in the first game now receives first. If the players split games, have the players play a 3rd game to 7 points.

Court Monitors: Matches will have a court monitor for every one to two courts of play. Court monitors are simply responsible for ensuring that matches proceed without hitches – that the server alternates courts, that they do not play ad points, that they do call the score correctly, etc. They are not "officials" and do not insert themselves into the matches except to assist as described. Court monitors will be adult volunteers selected by tournament staff. Parents from all QuickStart teams are expected to serve in this capacity if so asked by tournament staff.
