Free Net Generation Mobile App	✓	✓
Online Tennis Tool Center	✓	✓
Schools Newsletter	✓	✓

Net Generation Teacher

Teachers who sign up on usta.com and add their school PE class information will receive the Net Generation School Tennis Curriculum digitally. Teachers can then attend a free online or in-person training to increase their knowledge and comfort in delivering tennis in PE environments. Additionally, teachers have access to an ever-expanding suite of digital tools and resources available within the provider Tennis Tool Center on usta.com.

Teachers With School Partner

A teacher who connects with a school partner may be eligible to receive an equipment kit sent to the school, for free!* One equipment pack per school.

This equipment pack features 30 racquets, 36 balls, 2 rolls of barrier tape, 1 box of chalk and a Net Generation roller bag to carry all the equipment. These school partnerships can be facilitated by the USTA Section/District and ultimately require Section approval to ensure the most impactful community connections are formed.

For questions, contact Netgenerationschools@usta.com

*To receive equipment, a school must complete an approved School Partnership Agreement.
