

DROP SHOTS

FREQUENTLY ASKED QUESTIONS

What is Drop Shots?

Drops Shots is a league created in the Spring of 2015 and piloted in Louisville designed to target tennis players between 21-40 years old. The league highlighted the social aspects of tennis as opposed to the more competitive Adult Leagues. The league has now expanded into Lexington, Paducah, and Somerset.

What aspects of the league make it social?

Drop Shots creates a more laid-back environment to play tennis, including teams made by league coordinators to make it easier to join, only doubles play, music during matches, and post-match socials. We also create fun swag and other social opportunities to make it FUN.

Do I need to have a certain skill level to play?

No! We accept players of all skill levels and experience. Players who have never played tennis might enjoy Tennis Apprentice for instruction, but we don't exclude any player. Matches are created by coordinators to ensure the most even matches and constant changing of partners allows for beginner players to learn from more experienced players.

What about cost?

The cost varies slightly in each area, but we focus on providing low-cost tennis. Leagues do not require a USTA membership, which allows us to keep costs between 40-55 dollars for an 8-week session.

Where do I go to find more information?
